BESPOKE

AT HOME

Residential Stars

Carved from a single block of Lagos Azul limestone, this double vanity resting effortlessly atop a custom mirrored cabinet, is undeniably stylish yet impressively durable as well.

Our bespoke stone basins are available in over 30 standard materials, but if that doesn't satisfy you please tell us what you desire and we will make it happen.

Timeless yet on-trend cubist mosaics reminiscent of the early 20th century bring texture and focus to this otherwise understated shower room.

Avoiding the traditional and sometimes jarring black and white colour palette, our version in Nero Marquina, Grey Fousanna and Ash Grey is a soft and elegant combination of warm greys against black.

LEE GARDEN III

Hong Kong

Uninspiring, dark and characterless shopping malls are a thing of the past, particularly in Hong Kong, one of the world's leading retail destinations where luxury brands fight for prime floor space in its jaw-dropping malls. Lee Garden III is certainly one of these spaces, breaking the mold in the city's vibrant Causeway Bay district.

Owned and managed by renowned Hong Kong property developer, Hysan, the building embodies Hong Kong's recent effort at promoting work-life balance with a retail podium, a Sky Garden and a wide assortment of exciting dining, wellness and sports facilities.

Bespoke free standing basins were designed in collaboration with leading international design firm Aedas, for the washrooms. A unique invisible access door was integrated into our Doric basin to facilitate maintenance in this high traffic commercial setting.

Please follow us on Instagram to see our latest installations and new products.
