TERRAZZO

Upcycling At Its Finest

Designs and materials cycle in and out of popularity and Terrazzo is firmly back in the spotlight for many of today's designers. In addition to its distinct look, our Terrazzo range is durable, low-maintenance, customizable, and of course eco-friendly. No longer limited to flat surfaces, our unique molding technology allows for the creation of seamless dimensional products in Terrazzo.

Claybrook's Terrazzo bathware features beautiful natural marble chips from our stone production works. The collection includes a varied colour palette with 8 standard tones: Arctic, Blush, Crema, Gravel, Obsidian, Ochre, Sage and Steel. The technique can be applied to any of our standard products and of course custom designs are welcomed.

FOUR SEASONS ASTIR PALACE HOTEL

Athens, Greece

Heralding in a new era of the former legendary Astir Palace and an exciting new chapter for a global brand, the first Four Seasons in Greece - Four Seasons Astir Palace Hotel Athens is now open for guests.

Meyer Davis Studio of New York created the stunning interiors and selected Claybrook baths for the guestrooms, suites and spa. The baths are the focal point of the airy contemporary bathrooms and invite guests to soak their stresses away while enjoying the breathtaking views beyond.

There are 300 rooms in three stylistically distinct settings allowing guests to choose their ideal accommodation, whatever the purpose of their stay. From laid-back relaxation in the Arion wing, to a dynamic see-and-be-seen vibe at Nafsika, to the ultimate in beachside luxury in The Bungalows.
